

Equipment Technical Bulletin

EPDM Warewash 100 Series Pump Rinse
Tubing Has Been Discontinued

PROBLEM:

Due to our vendors' manufacturing process variance, small SnapHead EPDM rinse tubing does not meet Beta Technology's quality standards, and in some cases fails to pump product due to dimensional variances.

SOLUTION:

EPDM tubing has been discontinued as a warewash rinse tube in the 100 Series pumps. EPDM tubing remains a reliable and quality tube in other tube sizes. Former EPDM rinse tube users please use Biwall, Norprene or Flex, depending on which is compatible with your chemicals
