

Equipment Technical Bulletin

Stainless Steel Clamps Are Now Being Used on Large EPDM SnapHead Pump Tubes

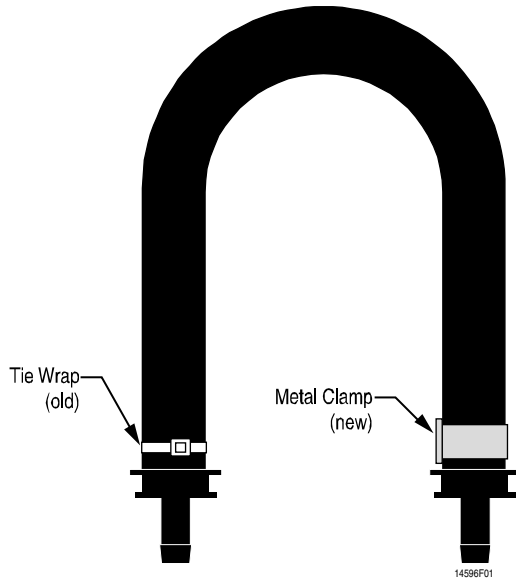

REASON / BACKGROUND

Tie wraps are not reliably holding the tube on the standard Summit 0.25" (6.35 mm) ID EPDM tube.

SOLUTION / ACTION

Stainless steel clamps are now being used to ensure reliable connections. The tube kit item number is the same (087900), and all new tube kits are being built with the stainless steel clamp.
