

Equipment Technical Bulletin

L4000E PCB Spare Obsolescence

REASON / BACKGROUND

PCB's which have no option of running in Latched mode, (096855 and 096856), are being obsoleted. Please order the Latched mode version of the PCB instead. If you have been purchasing 096855, please buy 096857. If you have been purchasing 096856, please buy 096858.

Latched mode PCB's operate like the unlatched version, but also have latched capability. Please note there is no physical difference between the PCB's. Software version 1.2 PCB's are the latched version, and Version 1.0 is the non-latched version.

Voltage	Latch Option	No Latch Option
115	096857	096855
230	096858	096856
Status	Available	To be obsoleted
